

ALANÍ[®]

L'Art del paper Tissù

Professionals in the Art of Tissue Paper Manufacturing

**“To deliver products, quality, and services...
On time, every time.”**

Our commitment to Quality

At ALANI HIGIENE PROFESIONAL S.L. we are focused on high quality paper products production.

We take care of every single detail, designing and developing products tailor made for the specific needs of our customers.

Providing private label at no extra cost, and offering short production and delivery lead time.

We offer fast and professional response in administration, production and logistic in three languages: English, Spanish and French.

At ALANI we get things done effectively.

We provide Hygiene solutions for specific needs.
But we make it faster and easier for the customer at a lower cost.

✓ Professionalism ✓ Product ✓ Personnel ✓ Price

Who we are

What do we offer?

Flexibility: We adapt to fit your needs.

Private Label in both Paper Products and Dispensers.

Compact, concentrated and ecological tissue paper products.
Innovative Dispensing solutions

Speed: Short lead time for production and logistics to anywhere in the world

Why use?

Alani is focused in the production of products which reduce unnecessary waste, space, labour, administration and logistic costs.

Offering important savings in maintenance, transport and storage costs.

We are a company focused in progress, therefore we are constantly innovating. Bringing new products to the market that will guarantee customer satisfaction and Ecological improvement.

Alani and the environment

Alani obtains the Ecolabel Certificate

The European Ecolabel stands for low environmental impacts throughout a product's life cycle — from manufacturing to disposal. Consumers can find it across the European Union, Norway, Liechtenstein and Iceland.

The ECOLABEL encourages reduction in:

- ☒ Water and energy use
- ☒ The use of renewable resources
- ☒ Generated waste

The Flower stands for high quality as well as care for the environment. The label certifies top performing products only.

More than 162 of our paper products have been awarded the European Ecolabel Certificate.

We proud ourselves to have also achieved

18% reduction in CO2 emissions

21% reduction in water consumption usage

15% property energy usage improvement

45% waste reduction in packaging materials

ALANÍ®

L'Art del paper Tissù

Our range of products

Compact Coreless

Why Coreless?

*37% more kilograms of paper per pallet with coreless rolls against products with core
+47% real saving in administration, labour and logistics costs*

Coreless Rolls:
No core. No waste. No mess

Maximum autonomy. Two compact coreless rolls equals to 9 conventional toilet rolls.

45% Less Transport Costs
Reduced storage space

95% Less packaging waste
Our Compact coreless rolls come packed in Shrink wrap.

Complete range of dispensers to match

Anti-vandalic
Extra strong and resistant ABS material

Additional paper roll.
The dispenser never runs out of paper

Efficient in every way
Easy to load. Easy to maintain. Easy to use

Consumption Control
Only after complete consumption of the first roll the user can access the second one.

More Hygienic
The rolls remain dry and well protected inside the dispenser.

*Our Compact Coreless Products can make 69 tons of paper
and packaging disappear from your waste stream each year.*

Based on using 14,000 cases of coreless tissue per year.

Compact Coreless Toilet Roll

The softness and absorbency of this innovative toilet paper, available in two and three plies, show the customer that we care about their comfort. The light embossing adds smoothness and volume to the paper. Each pack of 36 rolls comes in 12 sub packs of 3 rolls each, with an elegant film to ensure health protection and improved corporate image.

Being manufactured without core, reduces its waste and increases its total use, up to the last meter of paper.

The paper does not block the drain, as they have been carefully designed with the exact degree of dissolution.

Our products are made out of 100% pure cellulose, coming from reforested fibers so that their environmental impact is very low. And are certified by the ECOLABEL.

These compact rolls work on any Coreless Dispenser in the market.

Greater autonomy, less consumption = maximum savings.

1 Compact Coreless Roll = 4 conventional toilet rolls.

Code	Description	Plies	Metres	Quality	Units / Pack
- HPCO0085DGVC	Compact Coreless 85	2	85	100% pure cellulose	36
- HPCO0065TGVC	Compact Coreless 65	3	65	100% pure cellulose	36

Coreless Twin Tissue Dispenser

Coreless tissue technology with the most compact format in the market.

Complete consumption of the rolls. Easy loading. Compact design.

Fully enclosed - paper stays clean and dry.

Transparent cover shows roll status at a glance.

Locking hinged cover eliminates pilferage.

Made of tough impact resistant materials. Vandal-proof, break resistant, chemical and most resins conform to the UL94HB flammability rating.

Dispenser Specification		Paper Specification	
Code	DGH1CT205000	Core Size	Coreless
Depth	4,80" 122mm	The dispenser is compatible with the following references	HPCO0065TLVC
Width	10,93" 278mm		HPCO0085DLVC
Height	7,28" 185mm		HPCO0096DLVC
Weight	2,35 lbs. 1,07kg		

4 Station Carrousel Dispenser

4 station coreless tissue carrousel.

The user can't have access to the second roll until the first one is fully finished.

Easy loading and fully enclosed for maximum hygiene.

Transparent cover shows roll status at a glance.

Locking hinged cover eliminates pilferage.

Made of tough impact resistant materials. Vandal-proof, break resistant, chemical and most resins conform to the UL94HB flammability rating.

Universal Compact Matic

Alani S.L. has developed a new system for the Matic Rolls.

By inserting a new designed plastic stick in the centre of the roll, space-wasting cores are replaced, and the roll doesn't lose its natural centered shape.

Thanks to this registered trade mark system, the compact roll will now fit our Universal Compact Matic Dispenser, and any Matic or Compact Coreless Dispenser in the market.

Other Benefits:

- Due to its compact size we can fit 12% more cases per pallet.
- 36 rolls per case completely protected against bacteria, dirt and humidity.
- Reduced waste : Avoid the unnecessary waste of the old systems with core.
- Stock Reduction: 3 products in 1!!!

Code	Description	Plies	Metres	Quality	Units / Pack
HPUN0096DLVS	Universal Compact Matic	2	96	100% pure cellulose	36

Three Products in One!

The Universal Compact Matic roll can be used as a coreless roll by removing the stick, as a matic with the stick, or as a Captive system with our Universal Compact Matic Dispenser.

Exclusive Benefits

- Captive System: By using this product in our Dispenser DHBP00540000, you ensure that your investment in the Dispenser will be worthwhile in the short and long run.
- We offer different types of sticks to fulfill the demands of the changing markets
- Greater autonomy and less consumption.
 - Reduced costs of storage and transportation.
 - Savings in maintenance: Each roll contains 4.5 times the amount of paper that a conventional standard roll has.
 - PREMIUM Packaging: This product is packed in a strong and protective carton case with holes, for perfect transport and storage requirements

Universal Compact Matic Dispenser

This dispenser fits Alani's New Universal Compact Matic System and it also works with almost all the Matic System rolls in the market.

- The two-roll system allows automatic access to second roll once first one is finished
- Reduces the risk of running out of paper.
- Less labour replacing rolls. - Safety lock.
- Captive System: Our dispenser was specially designed for our reference HPUN0096DLVS.

Consumption Control: The dispenser slows down the rolling of the paper coming out in order to avoid excessive use.

Coreless Centre Feed

Save up to 45% in paper consumption.

The Coreless Centre Feed is an advanced dispensing system which offers one sheet at a time. The quality of the paper is extra absorbent and resistant, in order to be used in any type of surface.

Coreless Rolls
No core. No waste. No mess.

Individual Packaging
Protects the paper from bacteria and humidity.
(It can also be used as a portable dispenser)

45% Less Transport Costs
Reduced storage space.

95% Less packaging waste
Our coreless Centre Feed rolls are packed in Shrink wrap.

Complete range of dispensers to match.

Anti-vandalic & Anti-theft
Extra strong and resistant ABS material.

Efficient in every way
Easy to load. Easy to maintain. Easy to use.

Consumption Control: The locking key can be used to open the mouth of the dispenser, offering 6 positions of adjustment: *(From one sheet at a time, up to more paper flow for busy areas).*

Extra Loading Space
The dispenser loads up to 230m 2 plies Centre Pull Rolls. 50% more Autonomy.

Transparent Lid
Allows to see paper status at a glance.
Lateral opening for easier loading.

Versatile Dispenser
The dispenser can be adjusted to work with 1, 2 and 3 ply paper towels. As well as TAD.

More Hygienic
The rolls are well protected inside the dispenser. Its hands free system reduces the risk of cross-contamination.

Coreless Centre Feed Towel

Absorbent and resistant Centre Feed towels in 1 and 2 plies.

Coreless : No core. No waste. No mess

- Benefits of the Single pack: Can be used as a portable dispenser on trolleys and workstations.
- It can also be left with the film inside the dispenser to protect the paper from water, and chemical spills during foam cleaning. At the same time it keeps the product more hygienic to other factors such as dust, moisture and dirt. All this along with a better corporate image.
- Easy to Use: Quick access to paper, reduces time and waste.

High quality paper, whose essential property is its high wet strength, more resistant in water and faster absorption.

Code	Description	Plies	Quality	Units / Pack

TAD Towel - Premium Quality

These towels are manufactured using the TAD technology (through air drying). Such a technological innovation offer increased absorbency, softness and strength; Delivering a perfect balance of performance, endurance and a pleasant texture in use. It also reduces to the maximum the generated waste, converting her in an excellent alternative for our toilet maintenance and cleaning.

By absorbing 10 times its own weight in water, reduces its size inside the bin. Taking up to 4 times less space than the conventional paper towel.

Ideal for demanding, high-traffic environments.

These premium quality towels present a winning formula in relationship quality - price. Which can be demonstrated in their current levels of participation in the European market.

**Maximum absorption power with reduced waste.
In an extra soft paper towel.**

AmbiFresh PLUS

AmbiFresh Plus is an INNOVATIVE SYSTEM that operates through evaporation with heat, consistently it releases a fragrance in the air and creates a pleasant feeling and a sense of well-being. It is:
CLEAN, as it does not stain any surfaces nor does it pollute.
ECONOMICAL and it covers a GREAT RANGE: One refill of AmbiFresh Plus can cover up to 375m³ during 30 days, working 24 hours a day non-stop.

Since this device works with electric power, it releases a pleasant and consistent controlled evaporation.
The low power consumption (2.8 W) reduces the running costs compared to battery-operated systems.

A sprayer has a very small operational range, generally limited to the scope of the spraying - between 22 m³.
Ambielectric Plus has a proven range of 17 times more than the sprayer. The refill has a life of 30 days, working non-stop 24 hours a day. By comparison, a sprayer lasts for about 20 days in the same working conditions.
In conclusion, our system is the cheapest in the market. This means bringing our business to a new level: the future of air freshening
